Skiing, the honour of a separate history

The history of the Plateau is linked to downhill skiing at the highest level. It was here, at the beginning of the 1900s, that the pioneers of this wonderful sport found their ideal environment and set out to conquer the world of skiing. With the foundation of the Ski Club in 1952, Selvino became an inexhaustible breeding ground of champions and over the last half-century has provided the national team with 23 skiers, including Olympic gold medallists Paola Magoni, Deborah Compagnoni and Daniela Ceccarelli. The Ski Club is the pride and joy of Selvino; it boasts an unparalleled roll of honour which has earned it the Italian Olympic Committee's highest award, the gold star of merit. Its ski school is amongst the finest in Italy in terms of training children; in the summer, it offers a practice slope on grass, and in winter an artificially snow covered slope.

For those seeking a dynamic holiday, the Plateau offers modern indoor and outdoor sporting facilities where it is possible to practise all, and we mean all, your favorite sports. The swimming pools, with booth a 25 m. and a baby pool, the sports arena and the indoor tennis courts are cutting edge structures, from both a technical and a qualitative point of view. There are also outdoor tennis courts, football and 5-a-side pitches, bowling facilities and a miniature golf course. Kids can also slide down plastic slopes of rubber rings known as Tubbies, while skating enthusiasts can enjoy the roller rink, which becomes an ice-skating rink during the winter. In other words, the best of sport and the best of fun all around the year.
